

Dear Rebecca,

Since we sent a letter to you earlier this week, we received a report concerning you. It made us sad to know you were sick for a week because of the omicron strain of COVID. We are thankful to learn you have recovered. Nevertheless, you had to miss school so now you are studying hard so you will do well on your final examination on March 17th. Please know we pray you will do excellent on the exam. We continue to pray you will get your ID card. In our prayers we continue to ask our Father to watch over you during the unrest in your country. "Oh, loving Father, hear our prayers! Thank you for your love and care for our Rebecca and those in her house."

Rebecca, we also send early birthday wishes to you! We have your name written on our calendar page for March 23.

With love and concern for you,
